

# WEB TECHNOLOGY WITH UI/UX

## ASSIGNMENT 1 – Task 1

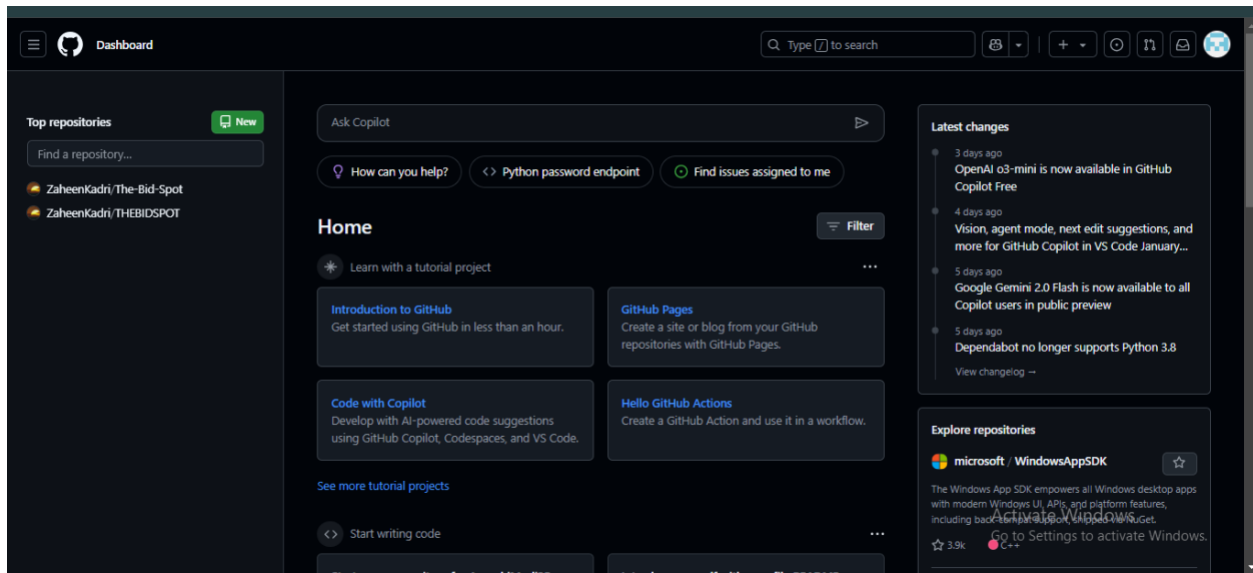

NAME: AAYUSHI MODI

CLASS: 4CEC

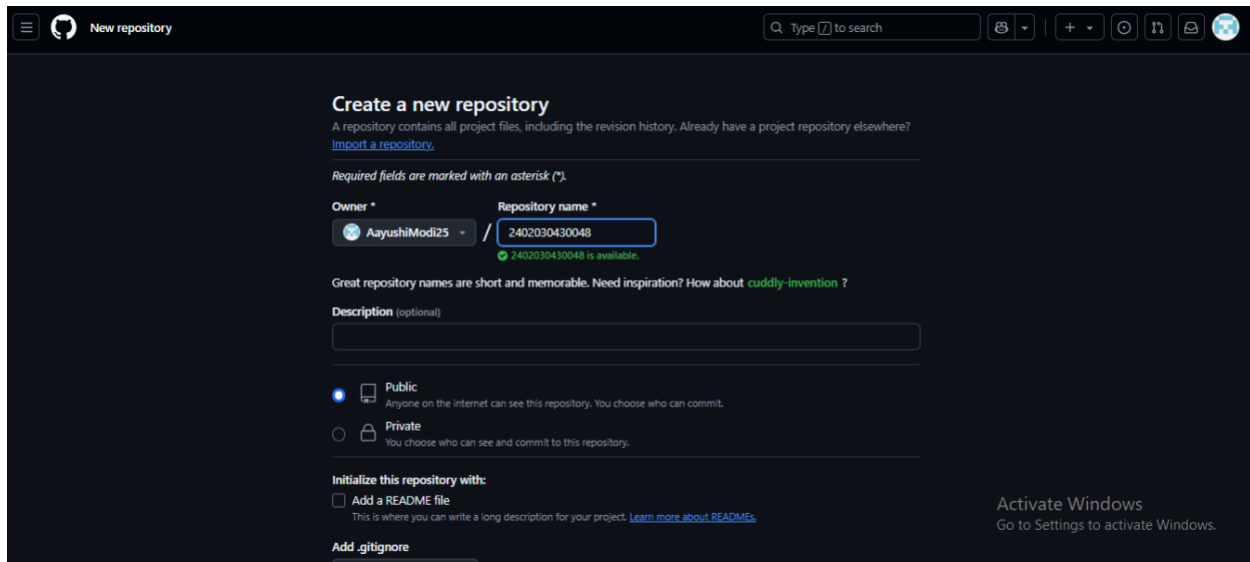

ROLLNO: 08

BRANCH: CE

### Step1 – Click on New button to create a new repository

## Step 2 - In the Repository name field, enter your enrollment number

**Create a new repository**

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Required fields are marked with an asterisk (\*).

**Owner \*** **Repository name \***

 AayushiModi25 / 2402030430048

 2402030430048 is available.

Great repository names are short and memorable. Need inspiration? How about [cuddly-invention](#) ?

**Description (optional)**

☒ **Public**  
Anyone on the internet can see this repository. You choose who can commit.

☐ **Private**  
You choose who can see and commit to this repository.

**Initialize this repository with:**

☐ **Add a README file**  
This is where you can write a long description for your project. [Learn more about READMEs.](#)

**Add .gitignore**

Choose which files not to track from a list of templates. [Learn more about ignoring files.](#)

**Choose a license**

A license tells others what they can and can't do with your code. [Learn more about licenses.](#)

 You are creating a public repository in your personal account.
